FLIGHTLINE HOBBY SHOP — SKYMASTERS RC CLUB BUILD DESIGN CONTEST 2016

4-10-16 18:30 HOURS

CERC BLDG MEDIA ROOM 455 EAST SCRIPPS LAKE ORION

Everyone is welcome to attend the first EVENT of the Skymasters & Flightline Hobby **Navy Design Build Contest 2016.**

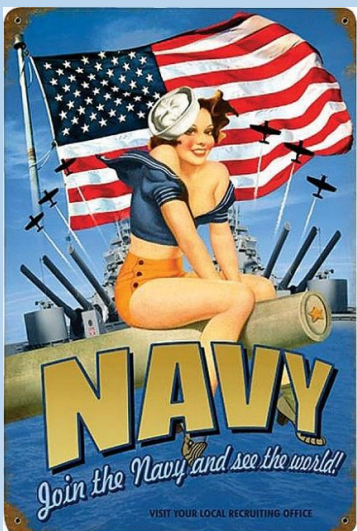

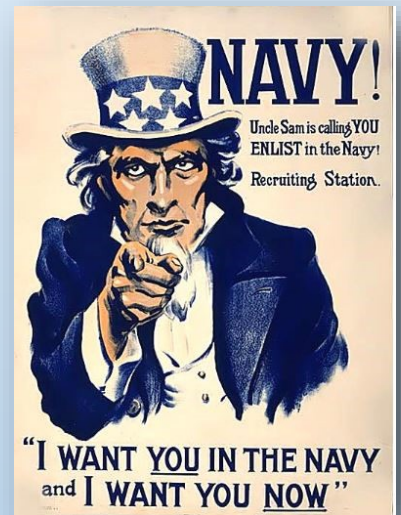

The builders will bring their creations to the CERC Building Media Room on Sunday April 10, at 6:30 p.m. We will have pizza and refreshments and a static display and judging of each aircraft. Models will be judged on: **fit and finish, creativity, mystery category & peoples choice.** So... finish up your bird and plan on being there. Each modeler will have a chance to share about their model and then prizes will be awarded for the categories.

Scoring of the models by the contestants. No voting until the builders show you their model, often there are some neat features. There is a **PEOPLES CHOICE** as well this year.

Here is the itinerary: 1. Register your model; 2. A quick greeting with pizza and hangout with the builders and friends. 3. Each pilot will take a few minutes to explain there model and any unique features.

[You may power up your plane but for safety, you need to have a throttle cut on your transmitter.]

The second EVENT will be a flying, bomb drop & carrier landing competition at the Skymasters field later this summer. Contest guidelines are available in the Skymasters **Skywriter Newsletter**; www.skymasters.org or from Flightline Hobby Shop. Join Skymasters RC Club and Flightline Hobby Shop for a great evening of fun!
