Join the Skymasters Radio Control Club for an R/C Symposium

# 2010 Spring Meetings

<b>January 13, 2010</b> (Wednesday)	<b>4 Stroke Engine Repair with David Adamisin.</b> Join us for an evening of tips and techniques for maintaining your favorite 4 stroke. David has extensive experience in development and maintain high performance engines from automotive to models.
<b>January 27, 2010</b> (Wednesday)	<b>Indoor Building Tools, Tips and Techniques</b> - an informative panel discussion on the latest ways to build your favorite indoor project. George Maiorana, Larry Boulet and Joe and Chris Hass will cover building lightweight foamies with epoxy, finishing techniques, unique water transfer decorations, variable pitch prop set ups, tools, supplies for your indoor aircraft.
<b>February 24, 2010</b> (Wednesday)	<b>Swap Shop</b> - Our annual swap shop! Known as a hobbyists swap meet - our mid-week event is one of a kind. Set up at 6pm. \$3 admission; \$10 table.
<b>March 10, 2010</b> (Wednesday)	Skymaster and noted IMAC competitor Tom Wheeler discusses Prop Tip Speed. Some call it "going supersonic". Some call it "ripping". Tom will explain where that extra sound is coming from, how to predict it and what to do to eliminate it.
<b>March 24, 2010</b> (Wednesday)	<b>"In the bones"</b> - Now an annual meeting event - a chance for members and guests to bring in their not yet completed models to share what they have been up to this winter!
<b>April 7, 2010</b> (Wednesday)	An Evening with Horizon - Pete Bergstrom, Bill Brundle, and John Redman from Horizon Hobby will join us on their way to the Toledo Expo! Come join us and see a sneak peek of Toledo! The restaurant will be open before and after the meeting for dinner and drinks.
<b>April 14, 2010</b> (Wednesday)	<b>An evening with Retro RC and ICBIM Products</b> - Local modeler and designer Mark Freeland of Retro RC has created a variety of kits and accessories with a decidedly "retro" look but with the latest building techniques. ICBIM owner Larry Berman provides a wide variety of laser cut gaskets for our engines. See the latest in this important engine accessories.
<b>April 28, 2010</b> (Wednesday)	<b>Helicopter Set Up techniques</b> - with Darrell "BIG D" Bell of Team Futaba! Darrell has a wealth of practical information. He will provide helpful tips on heli setups and programming.. Join us for an informative evening. Bring your heli!

May thru August – Informal meetings at field, 2<sup>nd</sup> Wednesday 8pm  
 Fall Meetings resume in September – see website for details
